

July 10, 1987

TO: File
FROM: Frank Jensen, Soils Reclamation Specialist
RE: DOE/047/025, Uintah County, Stone Quarry

On March 24, 1987, the minerals team visited the subject site. Only a small amount of stone has been removed from the area.

A check should be made on this case in a year or so - if more work isn't done, this case can be closed.

A photograph of the site follows:

Uintah County Stone Quarry - March 24, 1987
